

# CanProx One

## DUAL TECHNOLOGY RF TRANSMITTER

---

There's a lot of utility packed into this convenient little click-operated transmitter. While offering long-range wireless access control, it doubles as a short-range credential for the CanProx One proximity reader.

 **Cansec**  
Systems Ltd.

*Cutting edge simplicity*

# CanProx One

## DUAL TECHNOLOGY RF TRANSMITTER

### FEATURES & BENEFITS

- Convenient 2-in-1 click-operated transmitter allows dual access control in a single device
- Long-range transmission up to 100 feet is ideal for access from vehicle – no need to lower the window
- Adjustable read range, ideal for a variety of applications including parking gates, lobby access and arming/disarming alarm systems
- Doubles as a short-range credential for the CanProx One proximity reader
- CanProx One wireless receiver is compatible with Cansec's access control systems
- Encrypted rolling code transmission guards against code grabbing and scanning
- Mounted on a key ring for easy handling

### RECEIVERS

**CanProx One Wireless Receiver**  
37-bit Wiegand output for SmartLock controllers. Receives 433 MHz frequency. Comes with internal antenna. *For use with CanProx One Dual Technology RF Transmitter.*

**Smartfob Wireless Receiver**  
37-bit Wiegand output for SmartLock controllers. Receives 315 MHz frequency. Comes with whip antenna. *For use with Smartfob Transmitter (see below).*

### SPECIFICATIONS

Size	33 mm (w) x 58 mm (l) x 10 mm (d) [1.3 in (w) x 2.3 in (l) x 0.4 in (d)]
Weight	21.8 g (0.7 oz)
Colour	Black
Battery	Replaceable 27A, NM27-sized 12 V alkaline
Environment	Indoor or outdoor
Operating Temperature	-25°C to 50°C (-13°F to 122°F)
Warranty	One year

*Please refer to [www.cansec.com](http://www.cansec.com) for complete product specifications and technical bulletins.*

### Smartfob Transmitter

A simpler solution for those looking solely for long-range access control. Smartfob transmits on a 315 MHz frequency to the Smartfob wireless receiver. An omnidirectional read range means it doesn't have to be pointed at a receiver and it doesn't require a direct line of sight – perfect for parking garages and property gates.

*The Smartfob Transmitter offers simple long-range access control.*
