Webster

TOTAL ACCESS CONTROL SOLUTION

NO SOFTWARE REQUIRED

MAPMINI
1 Door System

MAP1
2-4 Door System

MAP2
2-8 Door System
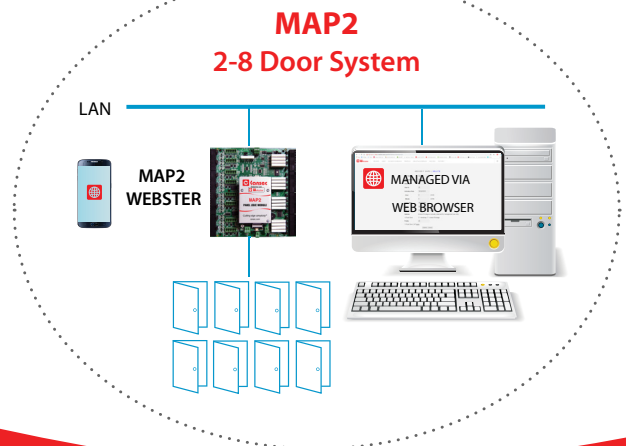

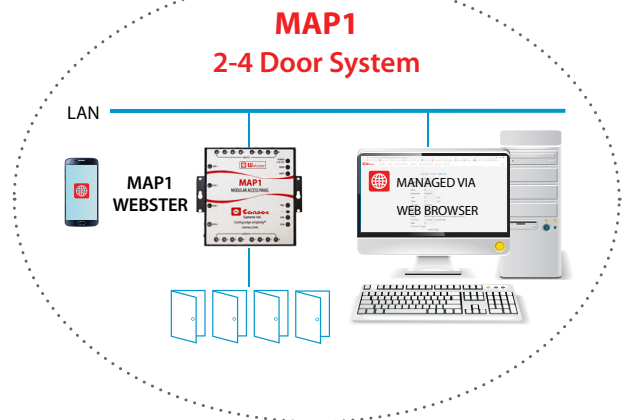

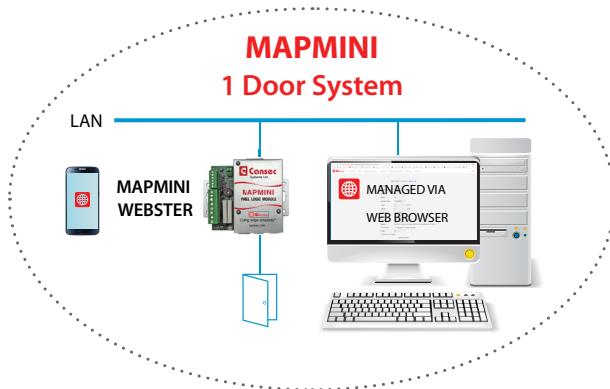

- Simple to install and operate. Minimal end-user training required
- Provides the functionality of a full PC-based access control system
- Manage from the web browser on your computer or phone
- Backed by an industry leading **5 year** warranty
- Simple setup utility included
- **Note** – Only one MAP controller per system

Designed With Locksmiths In Mind

The MAPMINI, MAP1 and MAP2 controllers can be provisioned with Webster firmware to create a total access control solution. Just plug the controller into a wired LAN connection and use the web browser on your computer or phone to set up and manage your system. No software to install.

We know it is important to get in and out of a job quickly because time is money. Finding a suitable existing computer at a customer site can be very time consuming requiring consultation with the IT Manager or whoever fulfills this job. With Webster there is no software to install. Cutting Edge Simplicty at its best!

HOW IT WORKS

We get it, customers can change their minds at the flip of a switch – What they want today, they don't want tomorrow. If your customer outgrows their Webster MAPMINI or MAP1 unit, our Webster Trade-In Credit Program will allow you to return your existing Webster unit to receive a credit on your account of 50% of what you paid for it, no matter when you bought it. No time limits. No questions asked. No fine print. Just lots and lots of easy.

And worry not; if your customer grows beyond the 8-Door max supported on our Webster MAP2, we've still got you covered! We can re-provision your Webster unit for use with Cansec's First Access or CloudACS software which can support up to 1,000 doors. Best of all, there is no charge to re-provision your Webster unit. Who said this stuff had to be complicated?
